| 06 | Musculoskeletal, Analgesic & Anti-Inflammatory Agents | 17 Products | 12 |
| 07 | Respiratory & Allergy Agents                          | 6 Products  | 14 |
| 08 | Urology, Sexual Health & Gynaecology                  | 6 Products  | 15 |
| 09 | Nutritional, Haematinics & Renal Agents               | 9 Products  | 16 |

**Note on classification:** Products are grouped by their primary pharmacological / therapeutic class. Many formulations serve dual indications; classification reflects principal mechanism of action. All products are available as oral solid dosage forms (tablets / capsules) or oral powder sachets unless otherwise noted. Pharmacopoeial standards include IP, USP, BP, and EP as applicable. Duplicate strengths and pharmacopoeial variants are listed as individual SKUs for procurement reference.

Formulations targeting neurological and psychiatric conditions including epilepsy, psychosis, depression, anxiety, bipolar disorder, vertigo, Parkinson's disease, and neuropathic pain. Includes antiepileptics, antipsychotics, antidepressants, anxiolytics, mood stabilisers, and neuro-vitamins.
